Student — Massachusetts Institute of Technology (2014-2018), Dublin High School (2010-2014; 4.6 GPA)
- ○ Anticipated B.S. in Electrical Engineering & Computer Science

Work Experiences

Cybersecurity Intern — Naval Postgraduate School Center for Cyber Warfare (Summer 2013)
- ○ Investigated Windows operating system security
- ○ Used the C++ programming language to write and test malware

Cell Biology Researcher — UC Davis Department of Molecular Biosciences (Summer 2012)
- ○ Studied Huntington's disease in an independent project using cell culture, microscopy, and densitometry

Engineering Experiences

VEX Robotics Captain — Robotics competition teams 5327C & 5327A (2011-2014)
- ○ Led 10-member team in designing, building, programming, and testing a VEX competition robot
- ● *Division Champion* - VEX Robotics World Championship (2014)
- ● *Judges' Award* - VEX Robotics World Championship (2013)
- ● *Excellence Award, Tournament Finalist, Programming Skills Champion* - VEX CA State Championship (2013)

Developer — Robotics engineering notebook website (2013-2014), robotics scouting database app (2013)
- ○ Designed and created online system for keeping track of robotics team meetings to replace paper notebooks
- ○ Led team in creating internationally recognized robotics scouting database using PHP, MySQL, CSS

Creator — typID keystroke dynamics authentication system (2014)
- ○ Built keystroke biometrics web application for preventing academic plagiarism as hackathon project
- ● *Best Education App* - HSHacks (2014)

Maker — Home automation project (2013-2014), Quadcopter UAV (2014)
- ○ Developed system to control bedroom's lighting, music, and alarms using a Raspberry Pi server
- ○ Constructed web interface and NFC-based control system using PHP, jQuery, Bash scripts
- ○ Built quadcopter from scratch as a short summer project

Special Olympics Volunteer — Soccer & basketball machine design team (2012-2013)
- ○ Built and demonstrated machines to help handicapped students participate in local Special Olympics
- ● *First Place & Best In Engineering Category* - Alameda County Science Fair (2013)

Leadership Experiences

Officer & Founder — Dublin High School Robotics Club (2010-2014)
- ○ Created club website and collaborated on outreach, sponsorship, and publicity efforts

Organizing Team Member — HackMIT collegiate hackathon (2014)
- ○ Help coordinate logistics and sponsor relations for a 1000+ student hackathon

Skills & Coursework

- ○ Java, Python, PHP, JavaScript, MySQL, CSS, HTML, C, C++, Git, LaTeX
- ○ Autodesk Inventor 3D mechanical design software, Adobe Photoshop
- ○ 6.01 (Intro to EECS I), 8.02 (Physics II), 18.02 (Multivariable Calculus)

Other Honors

- ● *First Place* - CA State PLTW Engineering competition (2011)
